

# EasiDraw

Download FREE version at [www.myeasidraw.com](http://www.myeasidraw.com) now!

## Benefits:

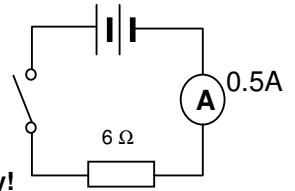

- Easy to use & Saves time!
- Smaller document size & Convenient!
- Precise drawings created!
- Flexible & Customisable!
- No new skill required!
- Integrates into your word processor and presentation editor!
- Educational tool!

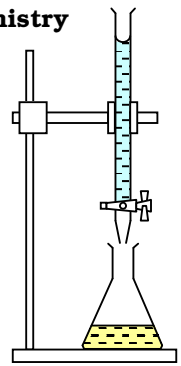

1. Click

2. Enter value

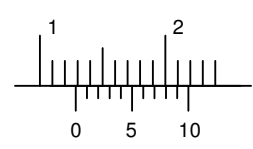

3. Diagram is drawn for you automatically!

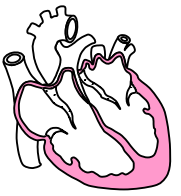

Chemistry

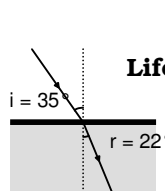

Physics

Life Science

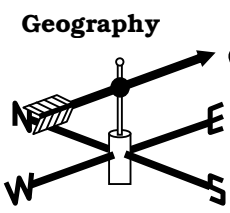

Maths

*"I am impressed at how quickly we can get diagrams drawn using EasiDraw. It is certainly useful to teachers of almost any subject, especially for mathematics, geography, and the sciences. EasiDraw would save them a lot of time in preparing teaching materials and test papers."*

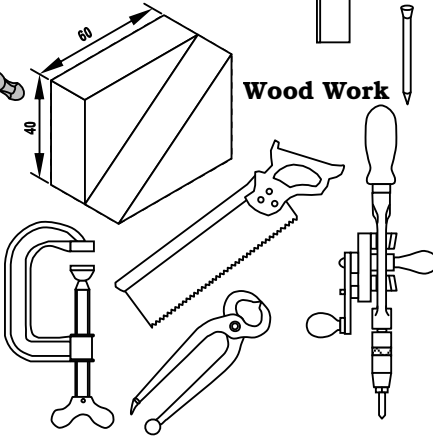

**Dr. Lee Ong Kim**  
Associate Professor and Teacher Educator  
Singapore

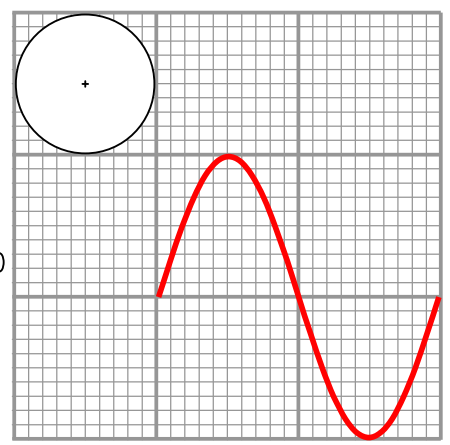

Geography

Metal Work

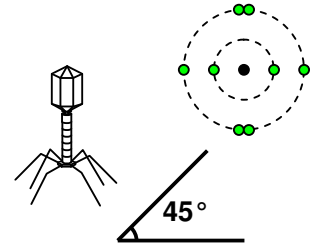

Wood Work

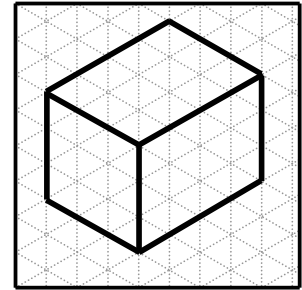

## EasiDraw Suite

- Create and insert dynamically-generated diagrams and symbols in physics, chemistry, biology, mathematics and geography
- Create and print graph paper of any size precisely
- Create and insert accurate angular diagrams
- On MS Word and PowerPoint

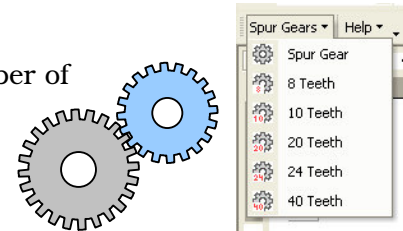

## EasiDraw Tech New

- Insert common wood and metal work tools
- Create and print isometric and 5-mm grids of any size precisely
- Customise gears of different diameter, teeth depth and number of teeth
- Create electrical and electronics circuit drawings
- On MS Word and PowerPoint

## EasiDraw Gear New

- Create spur gears
- Customise gear inner and outer radius, teeth depth and number of teeth
- Insert ready-made 8, 10, 20, 24 and 40 teeth gears
- On MS Word only
